## Eclipse Eyeglass Safety: *Don't be Blindsided!*

NASA has been alerted there are <u>unsafe paper solar</u> <u>glasses</u> being distributed. How to tell what is safe?

Conforms to and meets the Transmission Requirements of ISO 12312-2, Filters for Direct Observation of the Sun. Meets the Transmission Requirements of EN 1836:2005 + A1:2007 (E) for an E15 Filter for the Direct Observation of the Sun. Meets the Transmission Requirements of AS/NZS 1338.1:2012, Filters for Eye Protectors. EC Type Examination by: SAI Global Assurance Services Ltd. (Notified Body No. NB2056), MK5 8HJ U.K.

Mfg. by: American Paper Optics, LLC, 2995 Appling Rd., Ste. 106, Bartlett, TN 38133, USA, Tel: 901-381-1515, www.3dglassesonline.com

User Instructions: Inspect each time before use. Do not use and discard if damaged, torn, punctured or separated from the frame in any way. Do not use with other optical devices. This is not a toy. Children should only use with adult supervision. Limited to 3 minutes continuous use, intermittently for several hours. When using this product do not move around, drive a motor vehicle, or operate machinery. Do not use with diseased eye or after eye surgery. **Warning:** Never look at the sun without special eye protection. When viewing the eclipse, use eclipse glasses at all times when any part of the Sun is visible. Direct viewing of the Sun can cause permanent damage if the proper precautions are not taken. Adequate eye protection specifically designed for viewing the Sun is essential and should be worn so that no harmful rays from the Sun can reach the eye. Clean with a soft cloth or tissue only. Discard and do not use after 3 years.

## Look for <u>BOTH</u>:

- 1. U.S. Manufacturer Name (Recommend any of these: American Paper Optics, Rainbow Symphony, Thousand Oaks Optical, or TSE 17)
- 2. "ISO" Icon (Must have ISO reference 12312-2)

Other tips:

- 1. Don't reuse old glasses. Unsafe after 3 years
- 2. If lenses have scratches, don't use
- 3. If lenses are wrinkled, not safe for viewing the eclipse
- 4. U.S. manufacturers recommended
